 (Form is due by Feb. 15 of the following year)****Each section must be completed. Please print or type.****

- A. *A report on the facility's overall compliance with the SWMP. (Include here a summary of any measures taken to comply with your Stormwater Management Plan (SWMP), to fully implement it, changes or improvements made in any of your Best Management Practices (BMPs), employee training, spills, other problems encountered, etc. How is your plan working?)*

This facility is in final reclamation. No materials were on-site. The remaining task for completion is the establishment of sufficient vegetation to meet the post-mining land use. No problems were noted during inspections.

Were changes made to your SWMP? ☒ No ☐ Yes - Describe changes on a separate sheet.

- B. *A summary of each comprehensive stormwater facility inspection made, including date, findings, and action taken. (The permit requires at least **two** comprehensive facility inspections per year - see page 12 of the permit. Include here a **summary** of those inspections, plus any other comprehensive inspections made. It is not necessary to summarize day-to-day inspections, unless significant problems were noted.)*

First Inspection - Date 05-01-2015 . Findings, and action taken:

Small flows were observed in some of the diversion ditches. Flows were clear of sediments. No signs of erosion were found. No materials were on-site. Vegetation is improving. No maintenance action required.
